caltabellottajoey@gmail.com 631-889-4226

Aspiring Data Analyst with a background in software engineering and a passion for problem-solving, continuous learning, & discovering meaningful insights through data. Experienced in using SQL, Excel, and Tableau to explore, analyze, and visualize data, while continuing to build skills in Power BI and Python. Brings a developer's mindset, strong technical foundations, and a natural curiosity to solving problems, identifying trends, and turning raw data into actionable insights.

EDUCATION

Alex the Analyst Bootcamp

Data Analytics Bootcamp | Certificate of Completion 2026

General Assembly

Software Engineering Immersive | Completed 2022

Completed the Full-stack Software Engineering Immersive course in an intensive, 12-week, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.

Continued learning through **Udemy**.

Farmingdale State College

Bachelors of Science in Criminal Justice (B.S.) | Completed 2016

TOOLS & SKILLS

PostgresSQL
SQL
Tableau
Python
Git
Visual Studio Code
HTML
CSS
React

PROJECTS / EXPERIENCE

Automotive Data Analysis — SQL / MySQL

Historical Automotive Market Performance Analysis | SQL / MySQL

- Queried automotive datasets using SQL to explore vehicle pricing and performance characteristics.
- Analyzed top speed and acceleration to compare performance across vehicles.
- Used data filtering, sorting, and aggregation to identify patterns and summarize findings.

Automotive Performance Dashboard — Tableau

Automotive Performance Dashboard | Tableau

- Built an interactive dashboard to explore and compare automotive performance metrics.
- Used charts and visualizations to present vehicle performance data in an accessible format.
- Organized key metrics into a dashboard to help users identify trends and compare results.

MLB Batting Analysis — Excel

MLB Offensive Performance Analysis | Excel

- Analyzed historical MLB batting statistics to evaluate offensive performance.
- Used PivotTables to organize and summarize player statistics across multiple categories.
- Created visualizations to highlight trends and make player performance comparisons easier to understand.

WORK

Appliance World

Warehouse Associate | 2023 – Current

Manage the receipt, storage, and organization of incoming appliances and inventory. Maintain accurate inventory records through regular cycle counts and audits. Assist in the preparation and fulfillment of customer orders, including picking, packing, and dispatching appliances. Operate forklifts and other warehouse equipment in compliance with safety protocols. Ensure the cleanliness and organization of the warehouse, following best practices for safety and efficiency.

Home Depot

Customer Service Associate | 2022 – 2023

Assisted customers with product inquiries, locating items, and offering recommendations. Handled customer transactions at the cash register, including processing sales, returns, and exchanges accurately. Resolved customer complaints and issues promptly, ensuring a positive shopping experience. Collaborated with other team members to achieve store goals and enhance customer satisfaction.

Ray the Plumber

Plumber | 2019 – 2022

Responded to multiple plumbing emergencies per shift, including water leaks, drain stoppages, no hot water/heat. Trained 2 new hires and apprentices each quarter on basic plumbing practices and strong communication practices with customers. Collaborated with a team of 2-5 to complete big jobs in a timely manner. Ensured the work area in the customer's home was cleaned and sanitized.

Additional experience and references upon request.
